

Volume 11, No. 1

You had subscribed to *Tingue Topics* at our Web site. It's only three times per year but if you need to leave the list, scroll to the bottom.

Now, see what's hot at the laundry.

Ty Acton, Editor

You Said It!

Generations of Innovation for Laundries Worldwide

Featured Product *Polyflex Gold Ironer Cover*

Fresh from our product design lab, our new flatwork ironer roll cover was developed especially for processing polyesters. We know how table linens bunch at the feed roll and exit with creases. Our Polyflex Gold has a tough, aggressive texture that grips the linens and guides them through the ironer for safe, consistent feeding.

It's available only from your Tingue rep.

Feel a sample at our booth or for a free quote, call your Tingue rep at 800.829.3864 or [click here for their cell numbers.](#)

Is Ironer Rebuilding Right for Your Plant?

"Ty Acton raised the bar for what is considered excellence. It gives me great pleasure to announce his promotion to vice president sales for our laundry divisions."

– CEO David Tingue

If you appreciate a quality finish on your linens then you surely appreciate the quality and long life of American flatwork ironers.

When shopping for more ironing capacity, think about dependability, ease of maintenance and total cost of ownership. Like the hundreds of laundry operators who rely on Talley Machinery to rebuild their ironers, you may find that what's old is not only new again but better, faster and less expensive than new.

Learn more about ironer rebuilds at our booth and at <http://www.tallemachinery.com/products04.shtml>.

New ComplianceCaddy™ EPA-Certified for Shop Towel Compliance

We are now free to move shop towels about the country

Meet Team Tingue

See our latest new products and meet David, Ty, Jared and Team Tingue at CSCNetwork Annual Convention booth #322, March 11-13 at the Bellagio, Las Vegas, Nev.

See the Tingue Family of Companies at Clean '15

TBR Associates, Booth #3552

Talley Machinery, Booth #3452

Tingue, Brown & Co., Booth #3448

MOD, Booth #3548

again. The final rule under CFR 261.31 regulating solvent-contaminated wipes has been in effect and subject to EPA enforcement penalties since last January.

But only now can you get an EPA-certified shop towel handling system that fully complies with the costly regs. With the new ComplianceCaddy, these shop towels can be stored and transported safely and legally.

Drums and bags cannot offer full compliance or full protection.

The ComplianceCaddy accumulates solvent-contaminated shop towels in a leak-proof, fume-proof, rotomolded, plastic container and automatically separates, drains and contains the free liquids, which are not allowed to be transported, inside the container.

When full, it rolls away like a hand truck for cleaning or disposal. [Click here](#) for details.

Congratulate Our Favorite Newsletter Editor

From the desk of David Tingue, CEO

As a Tingue Topics reader, you almost certainly know Ty Acton, and if you do, then you know he has worked incredibly hard for us and for you for nearly 10 years. So it gives me great pleasure to tell you I have promoted Ty to vice president sales for laundry divisions.

Ty Acton

He is now responsible for global sales for both Tingue, Brown & Co. and our Talley Machinery laundry parts and equipment division.

Please join me in congratulating Ty at tacton@tingue.com and be sure to say hello at our Clean show and CSCNetwork booths. This is a well-deserved promotion!

See Ty's clean and wax procedures [here](#).
